Professional Summary

Python Automation Engineer with 4+years of experience in developing scalable automation frameworks and Python scripting solutions using Selenium and Pytest. Strong expertise in building reusable components, data-driven frameworks, and optimizing execution using parallel processing. Experienced in API and integrating Python-based solutions into CI/CD pipelines using Jenkins and GitHub. Proven ability to improve automation efficiency, reduce manual effort, and enhance test stability through robust scripting and debugging practices.

Technical Skills

- **Programming:** Python (OOPs, Scripting, Exception Handling)
- **Automation:** Selenium WebDriver, Pytest, Page Object Model (POM), Data-Driven Frameworks, pytest-xdist
- **API & Database:** REST API (Python Requests, Postman, Swagger), SQL, Database Validation
- **CI/CD & Tools:** Jenkins, Git, GitHub, GitHub Actions (Basics), Allure Reports
- **Other:** Cross-browser Testing, Debugging, Agile Scrum

Professional Experience

Python Automation Engineer – HCL Technologies (Client-T-Mobile) May 2024 – Present

- Designed and developed scalable automation frameworks using Python, Selenium, Pytest, and POM
- Developed Python scripts for regression, smoke, and sanity testing
- Built reusable Python utilities for test data and configuration handling
- Integrated automation scripts with Jenkins CI/CD pipelines and GitHub
- Implemented parallel execution using pytest-xdist, reducing execution time by 35%
- Improved automation stability through cross-browser execution
- Debugged automation failures using logs and exception handling
- Generated Allure and HTML reports for execution insights

Python Automation Engineer – HCL Technologies (Client-Dell EMC) Dec 2021 – Apr 2024

- Built end-to-end automation frameworks using Selenium WebDriver and Pytest
- Automated 200+ test cases for regression and integration workflows
- Designed data-driven automation scripts and reusable components
- Developed Python scripts for Backup/Recovery and SQL validation
- Integrated automation with Jenkins pipelines for continuous testing
- Worked in Agile Scrum environment for sprint-based execution
- Debugged automation issues and improved execution reliability

Education

Bachelor of Technology (Electrical and Electronics Engineering)
Chalapathi Institute of Engineering and Technology

2017 – 2021

Certifications

- Python Programming – HackerRank (2024)
- SQL Certification – HackerRank (2024)
- QA-STLC Certification – HCL Tech (2026)
